

# 1 2 kw solar inverter factory in Malaysia

## Overview

---

How big is Malaysia solar inverter market?

The government has awarded solar projects worth over 1.2 GW in the country which would become operational by 2020, which would drive substantial growth of solar inverters in the utility vertical during 2018-24. According to 6Wresearch, Malaysia solar inverter market size is projected to grow at a CAGR of 7.0% during 2018-24.

Who makes solar panels in Malaysia?

Malaysia's solar panel industry includes international manufacturers, local panel producers, business EPC (Engineering, Procurement, Construction) providers, and residential solar installers. The country is also a global leader in photovoltaic (PV) manufacturing, ranking third worldwide in production capacity.

Which region dominated the Malaysia solar inverter market in 2017?

The Peninsular region captured a majority of the Malaysia Solar Inverter Market share in 2017 due to rapid urbanization and high population density in the region.

Will Malaysia be the second-largest producer of solar photovoltaics in the world?

Malaysia aims to be the second-largest producer of solar photovoltaics (PV) in the world by 2020. Currently, the country is the third-largest solar panel manufacturer in the world.
