

# 100MW energy storage in Amsterdam power grid

## Overview

---

Is there a roadmap for energy storage in the Netherlands?

In the Netherlands, there has also historically not been a roadmap or detailed industrial strategy with supportive legislation, policy, taxation reliefs, or investment incentives for the energy storage market.

Is Alfen launching its largest battery energy storage system?

Almere, the Netherlands 24 April 2025 – Alfen is proud to announce the launch of its largest battery energy storage system (BESS) project to date with Return (formerly: SemperPower), a leading player in the development of independent large-scale energy storage projects.

What is Alfen 100mw/200mwh?

New Alfen 100MW/200MWh system will be one of the largest in the Netherlands connected to TenneT's TSO grid. Alfen's system will help Return simplify the integration of more renewable energy sources into the Dutch grid by providing essential reserve capacity.

Where are Alfen energy storage systems installed?

With a history of innovation dating back to 1937, Alfen's energy storage systems, smart grid solutions, and EV charging stations are installed across more than 30 countries in Europe. The company has been developing energy storage systems since 2011, with installations totalling over 1+ GWh of energy capacity across 11 European countries.
