# 100W Solar Street Light in Johannesburg South Africa

# Overview

What is a 100W solar LED street light?

This product is already in your quote request list. Introducing our 100W Solar LED Street Light, the perfect solution for providing bright and energy-efficient lighting for outdoor spaces. With a rated power of 100 watts and a luminosity of 1500-3000 lumens, this street light is perfect for illuminating streets, parking lots, gardens, and more.

How much power does a solar street light use?

With a rated power of 100 watts and a luminosity of 1500-3000 lumens, this street light is perfect for illuminating streets, parking lots, gardens, and more. The solar panel has a power of 6V 28W and a charging time of at least 6 hours, providing up to 10 hours of daily lighting.

What is a solar LED street light control system?

Control system: outdoor solar LED street light, three-in-one control system, light control + radar sensor intelligent identification + remote control, making lighting more efficient and energy-saving, improving product life, and brightness automatically changing with the environment.

What are universal solar street lights (high power)?

Our Universal Solar Street Lights (High Power) have many advantages over the traditional cheaper imported solar lights. Brighter LED Chips: Philips, Cree or Litup LED chips provide 130-151 lumens of light per watt with LM80 LED packages (high end components).
