# 10MWh Off-Grid Solar Container in Germany

## Overview

---

What is German Offgrid power?

GOP German Offgrid Power offers efficient solutions wherever the connection to a power grid is associated with high costs and expenses or diesel power generators are expensive transitional solutions. With German Offgrid Power, you benefit from the solar power plant regardless of infrastructural restrictions.

How many PV modules are in a solar container?

The innovative and mobile solar container contains 196 PV modules with a maximum nominal power rating of 130kWp, and can be extended with suitable energy storage systems. The lightweight, ecologically-friendly aluminium rail system guarantees a mobile solution with rapid availability. at full power.

What is a solarcontainer?

The Solarcontainer is a photovoltaic power plant that was specially developed as a mobile power generator with collapsible PV modules as a mobile solar system, a grid-independent solution represents. Solar panels lay flat on the ground. This position ensures maximum energy harvest Panels lays flat on the ground.

What is a solarfold container?

The solarfold Container is an immaculately-detailed and sophisticated plug & play system for a wide range of applications. The mobile drive system consists of a flexible drive unit mounted on traverses and can also be used for other solarfold PV power plants.
