

# **15kW Photovoltaic Energy Storage Container for Construction Sites**

## Overview

---

Energy Generation & Storage: A 15kW portable solar power system with integrated photovoltaic tiles and a 150,000mAh battery bank, designed to convert sunlight into usable electricity and store excess energy for off-grid use. What is a 100kW solar package?

Our 100kW solar package provides steady and reliable power for every part of your business, with tier 1 solar panels in a massive configuration and a serious 100kW solar inverter.

Why should you choose a modular solar power container?

Go big with our modular design for easy additional solar power capacity. Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy.

Why do you need a solar container unit?

Our solar containers ensure fast deployment, scalability, customization, cost savings, reliability, and sustainability for efficient energy anywhere. With our pre-configured solar container unit, you can get going quickly, and the folding solar panels for containers can be deployed in less than three hours.
