# 20-foot folding container for highway use

## Overview

---

What is a 20ft shipping container used for?

The 20ft shipping container is extremely versatile. It's not just for ocean freight, it's used in many industries for storage, transport, and construction. Whether for industrial cargo or innovative housing, the 20 foot container gets the job done. Not all 20ft containers are built the same.

Why should you choose a foldable container?

The foldable container is movable with crane or forklift hence better accessibility. Installation and dismantling is also very fast and can be constructed within 25 minutes. The insulation material used to construct the container also provide good sound and heat insulation.

Can I buy or sell a 20ft container?

From rugged 20ft dry containers to dependable 20ft reefer containers, every unit is built for performance, inspected for quality, and ready to support your logistics efficiently and reliably. You can buy, sell, or lease containers from Arcon depending on what works best for your business. Learn about 20-foot container weight, capacity, and uses.

Can a foldable container be used as a prefabricated building?

Using A foldable container as a Prefabricated Building for temporary site office/accommodation has a huge advantage of convenience and space saving. Compared with normal site office construction, there is cost saving for time, labor, transportation and warehousing convenience.
