

LOTWA SYSTEM

200kWh Solar-Powered Container Terminals at Hanoi Port

Overview

Is CMA CGM launching a 'net-zero' container barge in Southeast Asia?

And CMA CGM's latest announcement out of Vietnam might just be one of those tide-turning moments. In a bold stride toward net-zero inland logistics, CMA CGM has launched the first 100% electric container barge in Southeast Asia, signalling what could be a blueprint for clean cargo movement in emerging markets.

Will CMA CGM deploy a zero-emissions inland transport solution in Vietnam?

CMA CGM will deploy a zero-emissions inland transport solution in Vietnam: a 100% green electricity barge, supported by dedicated charging infrastructure powered by a new solar farm at the Gemalink terminal in Cai Mep (25% owned by CMA CGM Group). The e-barge is expected to begin operations in 2026.

Will CMA CGM launch a zero-emissions E-barge in Vietnam by 2026?

CMA CGM will launch a zero-emissions e-barge in Vietnam by 2026, powered by green electricity from a solar farm at the Gemalink terminal.

Why should enterprises invest in Green ports in Vietnam?

By embedding sustainability at the core of their operational strategies, enterprises in Vietnam can not only contribute to reducing environmental impacts but also enhance their competitiveness in an increasingly eco-conscious global market. Vietnam's development of green ports forms part of its bid to meet net-zero emissions target.
