

# **240v circuit breaker for sale in Canada**

## Overview

---

What is a 240V circuit breaker?

A circuit breaker 240V is also known as a double-pole circuit breaker. It is mainly used to protect a dedicated circuit for high-power appliances such as electric ranges, air conditioners, and more. This breaker is rated chiefly from 20 to 60 amps. Since a 240V breaker is as big as two 120v breakers, it takes up two places in a load center.

What brands of breakers are available in Canada?

What is a na240 circuit breaker?

NA240 - Federal Pioneer Stab-Lok Plug-In Circuit Breaker Federal Pacific NA series two pole 40 ampere plug-in stab-lok circuit breaker with maximum voltage rating of 240V tripping method thermal magnetic and standard interrupting rating of 10 kiloampere at 240V complete with (LI) long-time and instantaneous trip functions load side lug terminals.

What breaker size is best for a 240V circuit?

To know what breaker size is best for your 240V circuit, you should first compute your device's total amp rating. Moreover, it would be best if you also considered the 80% electrical rule. For the computation, identify the total wattage of your device, then divide it by its voltage rating.
