

# 300wh power station in China in Gambia

## Overview

---

How many power plants are there in the Gambia?

Currently, there are three major power plants in The Gambia, mostly in the Greater Banjul Area. In Brikama, the National Water and Electricity Company (NAWEC) and an Independent Power Producer (Global Electric Group) each own separate facilities.

Who commissioned Uganda's biggest hydropower station?

The first unit of Uganda's biggest hydropower station, which was commissioned by the Power Construction Corporation of China, was successfully connected to the Uganda national grid on March 22.

What is the Kafue Gorge Lower hydropower station?

The Kafue Gorge Lower Hydropower Station, constructed by Power Construction Corp of China, or PowerChina and China's hydropower engineering and construction company Sinohydro, plans to install five francis turbine power generating units, with a total installed capacity of 750 megawatts.

Where is China's new power plant located?

The power plant, located 90 kilometers south of the Zambian capital of Lusaka, was built by China's hydropower engineering and construction company Sinohydro and funded by the Export-Import Bank of China. The commissioning of the plant, which began construction in 2015, adds an additional 750 megawatts of power to the national grid.
