

50A cylindrical lithium iron phosphate battery

Overview

What is a 50Ah lithium iron phosphate battery?

High safety performance. Fast charging. The screw holes of this 3.2v 50ah lithium iron phosphate battery are available in 3 different versions (as shown below). This battery has a relatively small capacity and volume, which makes it more flexible to use or assemble battery packs. It is suitable for devices with limited space and need battery power.

What is a 50Ah LFP cylindrical cell?

Charging Temp. Discharging Temp. Applications The 50ah LFP cylindrical cell uses an innovative lithium battery production process, low pollution and high quality. Independent development of low-pressure.

What is melasta lithium iron phosphate (LiFePO₄)?

Melasta Lithium Iron phosphate (LiFePO₄) cells are one of the best qualities cells available in the market with these technological features 1. High Capacity of single cells upto 6500 mAh. 2. Multiple Shapes with 14500, 18650, 26650, and 32600. 3. Wide Discharge rate range from 1C to 15C. 4. Wide range of operating temperature from -20°C to 60°C. 5.

What is a cylindrical lithium ion battery?

Cylindrical cells one of the most widely used lithium ion battery shapes due to ease to use and good mechanical stability. The tubular cylindrical shape can withstand high internal pressures without collapsing. Melasta produces multiple sizes and capacities according to the customer requirement.

50A cylindrical lithium iron phosphate battery

LiFe-Shenzhen Melasta Battery Co., Ltd

Jul 4, 2023 · These cells have high density and light weight which enable this technology to use in multiple devices. Lithium Iron Phosphate Cylindrical Cells Cylindrical cells one of the most ...
