

# 5g outdoor micro base station

## Overview

---

What are the different types of 5G base stations?

Micro Cell: All-in-one, integrated Outdoor 5G base station can be deployed quickly to provide coverage for 5G-enabled devices. Mini Macro: Macro 5G RRU with high PA (20 to 40 watt) and Multi RAT technology offers industry-leading technology for wide area coverage.

What is a CableFree 5G small cell base station?

All of the the CableFree range of Small Cell products feature latest generation technology and upgradable features for future-proof networking and performance. CableFree 5G Small Cell Base Stations offer advanced features and “stand alone” capability for private 5G networks.

What is a 5G small cell gnodeb base station?

5G Small Cell gNodeB base stations from CableFree, part of the Emerald range of Base Station and core EPC products featuring advanced cellular technology. All of the the CableFree range of Small Cell products feature latest generation technology and upgradable features for future-proof networking and performance.

What is a 5G macro radio?

The Nybsys MA 5300 series radios are designed for macro site configurations, built to withstand rugged outdoor conditions, and are ideal for wireless carriers seeking to cover extensive areas. 5G macro radio technology supports exceptionally high data rates and large bandwidths.
