

# 60 000 mAh portable outdoor power bank

## Overview

---

What is a 10000 mAh power bank?

A 10000 mAh power bank from Mi is a must-have that can deliver enough power to charge your favorite devices. It comes with a portable design that will keep your smartphone or tablet charged up anytime, anywhere. It has a capacity of 10000 mAh and comes with a triple USB output (2 USB-A and 1 Type-C), allowing you to charge two devices simultaneously.

What is a high capacity power bank?

A high capacity power bank is the best one that can be used to charge your phone several times. What does mAh mean?

A mAh is a unit of power and is equivalent to the amount of energy an electronic device can hold. So, if you have a powerbank that has 1000mAh, this means that it can provide enough power for 1 hour of continuous use.

How long does a power bank last?

The power bank boasts a lifespan that is 10x longer than other models. It retains an impressive 85% of its charge even after one year without recharging, ensuring it is always ready whenever you need it. A smart display shows important information such as battery level, input and output power, remaining charge time, charging modes, and more.

How much power does a power bank charge?

The power bank has a 0.1W resolution. For devices like headphones or smartwatches with high battery levels, the charging power may fall below 0.1W. Rest assured, the power bank continues to charge the device even if the displayed power shows 0W.
