

A complete set of mobile energy storage power supply factory direct sales in Milan Italy

Overview

What is a professional energy storage system company?

As a professional energy storage system company, we provide a full range of energy storage products and solutions such as lithium battery system (BMS), bidirectional converter (PCS) and energy management system (EMS), and support your energy storage business in all directions and change the world energy pattern together!.

What is energy storage power conversion system?

Adopting three level control technology, Energy Storage Power Conversion System is a high efficiency and reliable performance bidirectional power converter from 300kW up to 600kW for the energy storage system solution in Power Generation and Transmission application. SCU provides an energy storage container for the milk powder factory.

What is the range of power conversion system energy storage?

Range from 50kW to 250kW, it well fits the requirement of power conversion system energy storage in commercial and industrial applications.

Why is mobile energy storage a stranded asset?

Stationary storage lacks flexibility, suffers from low utilization and from the risk of becoming a stranded asset. Power Edison addressed these issues by developing mobile energy storage platforms: TerraCharge™ and AquaCharge™ for mobile land-based and water-based mobile energy storage respectively.
