# Albania Wind Power Energy Storage Project

## Overview

---

Is Albania considering wind and solar power?

Albania is also looking at wind and solar power aside from controversial gas projects. There are currently at least 13 solar projects in the pipeline with a capacity of 1.24 GW between them. Additionally, a recent wind farm proposal has been given strategic investment status in the country.

Is Albania working on an offshore wind project?

Albania is working on an offshore wind project supported by the European Bank for Reconstruction and Development (EBRD), according to Minister of Infrastructure and Energy Belinda Balluku. The project is currently in a study phase, she said.

Does Albania have a wind power capacity?

Although Albania has currently no wind power capacity, the country also presents a significant cost-competitive wind potential based on IRENA's estimates.

How can Albania solve the energy crisis?

In addition to eliminating the electricity deficit and taking electrification to new sectors, Albania can increase its potential to unlock new industries and investment using clean energy. The country can explore opportunities to produce green hydrogen through solar and wind power.

## Albania Wind Power Energy Storage Project

---

CWP Europe and the European Commission to Advance Renewable Energy ...

4 days ago · The 600 MW Tropoja Wind Farm, will advance Albania's energy independence by providing clean, affordable electricity - supporting the country's energy strategy. In ...

---

Albania

3 days ago · Albania has set ambitious goals for its renewable energy transition, aiming to become a regional wind energy leader and net exporter of green electricity. Key commitments ...
