# Astana Industrial Frequency Off-solar container grid inverter Manufacturer

## Overview

---

What is xindun power 3 phase hybrid solar inverter off grid?

Off grid means that the inverter can be used when the power grid is not available, and it can be combined with battery pack to form a UPS backup power supply. Xindun Power 3 phase hybrid solar inverter off grid 3kva-200kva, can carry 1-phase and 3-phase loads at the same time, support 100% unbalanced loading.

Who is the largest off grid inverter manufacturer & exporter in China?

As the largest off grid inverter manufacturer and exporter in China, Xindun has provided inverter production and overall solution calculations for more than 100 countries and regions around the world for 17 years. The inverter production plant is 10,000 square meters, 8 production lines and about 200 employees.

What is the production capacity of high-power 3 phase solar inverter?

The inverter production plant is 10,000 square meters, 8 production lines and about 200 employees. The monthly production capacity of high-power 3 phase hybrid solar inverter (10Kw~150Kw) is 8,000 units. It is worth mentioning that there are very few manufacturers producing high-power 3 phase solar inverters off grid in the market.

Are hybrid solar inverters CE approved?

Hybrid solar inverter 3 phase off grid inverter all have CE approved. As the largest off grid inverter manufacturer and exporter in China, Xindun has provided inverter production and overall solution calculations for more than 100 countries and regions around the world for 17 years.
