

# **Austria uninterruptible power supply ups**

## Overview

---

What is a static uninterruptible power supply (UPS)?

Our static uninterruptible power supply (UPS) systems comply with the VFI-SS-11 classification according to IEC 62040-3. With their robust industrial design, they support a secure consumer supply in continuous operation.

Where can I buy UPS - uninterruptible power supplies?

UPS - uninterruptible power supplies are available at Mouser Electronics, an authorized distributor for many leading manufacturers including APC, Phoenix Contact, SOLA, and Tripp-Lite. Please view our selection of UPS uninterruptible power supplies below.

How many UPS & battery systems have been installed in Switzerland?

More than 30'000 UPS and battery systems have been successfully delivered, installed and are in operation at more than 3'000 clients in more than 100 countries. This success is based on traditional Swiss values that focus on technical excellence and quality in all areas of operation. We welcome you to be part of it.

What is an uninterruptible combined UPS system?

The uninterruptible combined UPS units include an economical 24 V DC switched mode power supply with an integrated charge and control unit for optimal battery management. These space-saving combined UPS systems control and monitor the connected battery modules, providing early warnings when battery life expectancy is low.
