

ŁOTWA SYSTEM

Austrian mobile power station generator brand

Overview

How many small hydropower plants are there in Austria?

In Austria, more than 4,000 small hydropower plants are in operation, which in total supply more megawatt hours to the grid each year than the three largest Danube power plants combined. If a new small hydropower plant is built or an existing small hydropower plant is modernised, the operators turn to MOLL-MOTOR, for example.

What role does hydropower play in Austria?

Hydropower plays a special role here. In Austria, more than 4,000 small hydropower plants are in operation, which in total supply more megawatt hours to the grid each year than the three largest Danube power plants combined.
