

# **BESS energy storage explosion-proof container in Rotterdam the Netherlands**

## Overview

---

Where is the Netherlands' largest stand-alone battery energy storage system located?

Dispatch, a Dutch battery developer, is going to construct the Netherlands' largest stand-alone Battery Energy Storage System (BESS). This groundbreaking 45MW/ 90MWh utility-scale BESS will be located in the port area of Dordrecht, on a 6000m<sup>2</sup> site and will be used for grid stabilization by storing excess energy from renewable sources.

Is the Netherlands a good market for battery storage?

The Netherlands is an emerging market for battery storage but, due to the lack of saturation, also a highly exploitable one. In early 2025, enspired, together with Flexcity and S4 Energy, reached an exciting milestone by taking the country's first 4-hour BESS live in a cross-market optimization setup.

What is Bess in the Netherlands?

BESS in the Netherlands is a new and small but increasingly necessary industry. A striking growth in battery capacity began in 2021 when the total installed capacity rose by 65% compared to the previous year. This number doubled in 2022 and then tripled in 2023, reaching 621 MWh.

Who is Bess dispatch?
