

Battery Cabinet Battery Warranty

Overview

What is a lithium battery warranty service?

Class 3 (types A and B) and Class 4 power grids are harsh power grid environments. The warranty service is the product assurance service provided within the product warranty scope to resolve lithium battery quality issues. The service includes help desk, remote troubleshooting, and lithium battery spare parts replacement.

How long do battery warranties last?

Battery warranties protect against defects and performance drops, typically covering 3-10 years. They often include capacity retention thresholds (e.g., 70% after 8 years) and pro-rated terms. Exclusions include physical damage, improper use, or unauthorized modifications.

Do I need an extended warranty on a lithium battery?

If extended warranty is required, consult the SSD and evaluate the maximum service life of lithium batteries based on the battery model and application environment. Extended warranty can be provided within the service life and needs to be quoted. Subject to the feedback from the local spare parts contact person.

Are Samsung batteries covered by warranty?

Most warranties exclude damage from accidents, water exposure, extreme temperatures, or use with non-certified chargers. Samsung's battery policies void coverage if discharged below 20% regularly. Thermal runaway events in lithium-ion batteries are rarely covered. Documentation of proper maintenance is crucial for claims.
