# **Battery energy storage cabinet for Palau solar container communication station**

## Overview

---

What is the Palau solar battery project?

The Palau Solar Battery Project will be the largest such project in the Western Pacific. It will lessen Palau's imported fuel dependency, a major step towards its ambitious goal of 100%.

How will solar energy be produced in Palau?

Solar electricity will be produced by a hybrid 15.3 MWdc (13.2 MWac) solar photovoltaic (PV) plus 10.2 MWac/12.9 MWh battery energy storage system facility. Extensive safeguards to protect Palau's pristine environment SPEC did not leave any stone unturned to protect the pristine Palau ecosystem.

Does Palau rely on fossil fuels?

As a small island developing state, the Republic of Palau sought to wean itself off its dependence on fossil fuel for power, which accounts for 99.7% of the country's power generation. To address this issue, Palau invited Solar Pacific Energy Corporation (SPEC), Alternergy's solar developer, to develop a clean, renewable energy source.

Why should you choose Huijue battery-powered storage?

Huijue's lithium battery-powered storage offers top performance. Suitable for grids, commercial, & industrial use, our systems integrate seamlessly & optimize renewables. High-density, long-life, & smartly managed, they boost grid stability, energy efficiency, & reduce fossil fuel reliance.

## Battery energy storage cabinet for Palau solar container communication
