

Battery storage for Hanoi power grid

Overview

Can battery energy storage systems stabilize Vietnam's grid?

Sunita Dubey and Hyunjung Lee share how Vietnam is leveraging Battery Energy Storage Systems to stabilize their grid and accelerate the energy transition.

What is battery energy storage system (BESS)?

Battery Energy Storage Systems (BESS) play a pivotal role in addressing these challenges by minimising the intermittency of renewables, enhancing grid flexibility, and ensuring reliable power supply. In a significant development, Vietnam Electricity (EVN) has secured approval for its first pilot BESS project with a capacity of 50 MW/50MWh.

Can Bess be integrated into Vietnam's power grid?

In an effort to facilitate the integration of BESS into Vietnam's power grid, the Electricity and Renewable Energy Authority (EREA) of the Ministry of Industry and Trade recently hosted a technical workshop in collaboration with GEAPP.

What is the largest electricity storage project in Vietnam?

The largest electricity storage project in Vietnam is the Bac Ai Pumped Storage Hydropower Project. Located in Ninh Thuan province, the project has a capacity of 1,200 MW and is expected to play a crucial role in stabilizing the grid when it completes in a few years.

Battery storage for Hanoi power grid

Assessments of the Potential for Integrating Battery Energy Storage

Feb 17, 2025 · The global energy transition is accelerating with the integration of Renewable Energy Sources (RES) into the power grid, and Vietnam is no exception. However, when ...

Vietnam considers battery energy storage ...

Sep 22, 2024 · In cases where existing grid-tied solar energy systems are already in operation, adding battery energy storage systems may incur ...

Battery storage comes to power grid rescue

May 17, 2025 · Viet Nam remains the fastest-growing energy market in the world, with the country's power demand projected to see annual power demand rise by 10-12 per cent ...

Marubeni in 'first of a kind' Vietnam battery ...

Jan 7, 2025 · The plan also called for 300MW of battery storage deployment and 2,400MW of pumped hydro energy storage (PHES) by 2030. State ...

Battery Electricity Storage Systems, the energy sector's ...

Jul 16, 2024 · Abstract: Vietnam's rapid expansion in renewable energy, particularly solar and wind, necessitates the adoption of Battery Electricity Storage Systems (BESS) to address the ...

Vietnam pushes ahead with battery storage market plans

Sep 15, 2025 · Vietnam is accelerating efforts to develop a large-scale battery storage market, aiming to strengthen its renewable energy transition. On September 12, Hanoi hosted a ...

How Battery Energy Storage Systems Can Transform Vietnam...

Dec 13, 2024 · As Vietnam's economy grows, the demand for energy is rising rapidly, putting significant pressure on the country's infrastructure. This surge in demand has exposed ...

Marubeni in 'first of a kind' Vietnam battery storage project ...

Jan 7, 2025 · The plan also called for 300MW of battery storage deployment and 2,400MW of pumped hydro energy storage (PHES) by 2030. State-owned public power company Vietnam ...

Pioneering Innovation with Vietnam's BESS Pilot Project

Aug 2, 2024 · The variability of renewable energy sources, combined with the increasing demand often results in unreliable supply and frequent power shortages. Battery Energy Storage ...

Vietnam outlines national roadmap to deploy battery storage ...

Dec 5, 2025 · Vietnam's leaders sketched a stronger strategy for battery storage to integrate fast-growing wind and solar while improving reliability. Vietnam's power system is growing fast and

...

How Battery Energy Storage Systems Can ...

Dec 13, 2024 · As Vietnam's economy grows, the demand for energy is rising rapidly, putting significant pressure on the country's infrastructure. This ...

Vietnam considers battery energy storage systems

Sep 22, 2024 · In cases where existing grid-tied solar energy systems are already in operation, adding battery energy storage systems may incur higher integration costs than new project ...

Development of Battery Energy Storage Systems in Vietnam

Solar power capacity targets have been raised to between 46,459 MW and 73,416 MW. BESS capacity will support this growing share of solar and wind power in Vietnam's energy mix, ...
