

Belgrade to New Energy Passing Stations

Overview

Does Belgrade need a new energy infrastructure?

Modernizing Belgrade's energy infrastructure is paramount. The national grid is in dire need of upgrades to accommodate the integration of renewable energy sources, yet progress remains slow. Hydropower and wind energy projects, while promising, still represent only a fraction of Serbia's overall energy production.

Is the Belgrade railway station still the main station?

The railway station of Belgrade (Serbia), still the main station, despite the new station under construction "Prokob" which will be the future centre of Beograd, according to rumours. Until 1990 this station was one of the halts of the prestigious Orient Express (Paris-Istanbul). The station was inaugurated in 1884.

How to get from Belgrade Airport to train station?

The bus stop at Belgrade's train station is closest to the city centre and Belgrade Bus Station (BAS), the journey time between the airport and this stop is 30 minutes. You can buy tickets on board the bus, the price is 400 RSD for a single ticket. Bus line A1 operates its services with minibuses and regular buses.
