

LOTWA SYSTEM

Boston Energy Storage Equipment

Overview

What is Flatiron Energy's 300 MW battery storage project?

Flatiron Energy's groundbreaking 300-MW battery storage project in Boston aims to enhance reliability and champion environmental justice by 2028. Powering a greener future starts here! Flatiron Energy has received approval from ISO New England for a 300-MW/1,200-MWh battery energy storage system in Boston, Massachusetts.

Why should we invest in energy storage technology?

Advancements in Energy Technology: This project represents a significant investment in cutting-edge energy storage technology. It could lead to advancements and cost reductions in battery technology, making energy storage more accessible and efficient for other regions and projects.

What are the benefits of a battery storage system?

Here are some key points to consider: Enhanced Grid Stability: The 300-MW/1,200-MWh capacity of the battery storage system is expected to improve grid reliability and stability, particularly during peak demand times or unexpected outages. This helps to stabilize the electricity supply in the Greater Boston area.
