# British emergency energy storage power supply

## Overview

---

How many battery energy storage projects are there in the UK?

ed energy storage system. Over the past year, the number of battery energy storage projects in the UK's pipeline has increased from 239 to 338 in total.<sup>9</sup> The capacity of battery storage is also set to increase substantially as only 5% of projects in 2022 are in operation.

What is the Bramley battery energy storage system?

The agreement for the Bramley Battery Energy Storage System (BESS) will further enhance Shell's electricity supply and demand management capabilities and support the UK's ongoing energy transition.

How big is battery storage in the UK?

In the UK, the pipeline of battery storage projects has increased by around two-thirds in capacity over the past year, from 57.1 gigawatts to 95.6 gigawatts, says trade association RenewablesUK, with the average size of individual battery storage projects increasing.

What is the British Energy Security Strategy?

ansition. The British Energy Security Strategy<sup>1</sup> aims to decrease international reliance on fossil fuels while increasing the use of clean energy sources. This is viewed as essential to redu
