Brunei Energy Storage Power Station Investment

Overview

Does Brunei need a strong energy infrastructure?

The government remains committed to strengthening Brunei's energy infrastructure to support sustainable economic growth and maintain the nation's global competitiveness in investment and industrial development. [Bandar Seri Begawan, The Gulf Observer: Brunei Strengthens Electricity Infrastructure to Support Economic Growth and FDI.](#)

Does Brunei Darussalam have a strong electricity infrastructure?

[Bandar Seri Begawan, The Gulf Observer: Brunei Darussalam's electricity infrastructure remains robust in meeting current demand, supporting both residential needs and the nation's economic activities, including foreign direct investment \(FDI\).](#)

Will Brunei bring new power plants online by 2027 – 2028?

To address this, the government plans to bring new power plants online by 2027-2028 using Combined Cycle Gas Turbine (CCGT) technology, pushing efficiency past 35%. Alongside infrastructure upgrades, Brunei's climate policy mandates a minimum efficiency of 48% for new plants and aims for 30% renewable energy, primarily solar, by 2035.

How to achieve Wawasan Brunei 2035?

To achieve the objectives of Wawasan Brunei 2035, all economic sectors, including energy, must significantly boost their activity. Despite the growing emphasis on EEC, energy demand is expected to continue its steady ascent. Thus, the country will continue to rely on fossil fuels as its primary source of energy to meet rising domestic demand.
