

# Bucharest Energy Storage Container 20MWh

## Overview

---

What is Romania's energy storage requirement?

Minister of Energy Sebastian Burduja reportedly declared at a conference that Romania's storage requirement is 4,000MWh, and that half would be covered by BESS and half by pumped hydro energy storage (PHES) technology.

How big would a Bess project be in Romania?

The project would be many times larger than the largest BESS online in Romania today, a 6MW/24MWh system from developer and independent power producer (IPP) Monsson (Premium access article).

Will a government fund energy storage at wind & solar PV plants?

According to local reports, the government plans to allocate funding from the Modernisation Fund to support the deployment of energy storage at wind and solar PV plants covering 25% of the plants' output capacity.
