Cebu Energy Storage Low Temperature solar container lithium battery Factory in the Philippines

Overview

Pasig City, Philippines — 21 July 2025 – Meralco PowerGen Corporation (MGEN) is set to develop a 49-megawatt (MW) Battery Energy Storage System (BESS) in Toledo, Cebu as part of its efforts to enhance grid stability and support the country's energy transition. Why should you install a battery energy storage system in the Philippines?

BESS acts as a buffer between the grid and your facility, ensuring a consistent and reliable power supply. BESS can help keep essential appliances running in areas where power outages are common. Curious to find out how much you can save installing battery energy storage systems in the Philippines?

What is Masinloc battery energy storage?

The Masinloc Battery Energy Storage System (BESS) is the first battery energy storage facility in the Philippines and one of the first in Southeast Asia. We started our venture into battery energy storage technology in 2018 when we acquired this 10 MW system from AES Philippines.

Does the Philippines have a solar battery market?

The government's push to increase solar PV installations includes growing support for residential and commercial solar battery storage systems. Solar battery prices in the Philippines depend on brand, capacity, technology (LiFePO₄ vs. lead-acid), and features like Wi-Fi monitoring, wall-mounting, and cycle life.

How ACEN is revolutionizing energy solutions in the Philippines?

ACEN is revolutionizing energy solutions in the Philippines with cutting-edge battery storage projects. These initiatives are tailored to enhance grid reliability, allowing for smoother integration of renewable sources and providing critical backup during peak demands.
