

# **China control switchgear in China distributor**

## Overview

---

What is a switchgear system?

Switchgear is a type of electrical equipment that is designed to control, protect and isolate connected electrical devices. Switchgear is used both to de-energize devices to allow work to be done and to clear faults downstream. Let's become more familiar with such type of equipment. What are the common types of switchgear systems?

.

Why is China's switchgear industry important?

The Chinese government is increasingly prioritizing green technologies, pushing companies to adopt sustainable practices. Furthermore, the global market relevance of China's switchgear industry is significant, as it is one of the largest producers and consumers of electrical equipment.

What is an automated power system with switchgear?

Parts of the power grid can then be quickly restored and the damage radius is minimized. A good example of an automated power system with switchgear can be found practically on any modern power station. Also, such systems are frequently used on manufacturing sites and other facilities where huge electricity consumption can be met.

Who is KDM Electric switchgear manufacturer & supplier?

KDM, as one of the leading China-based electric switchgear manufacturer and supplier, we offer all-in-one reliable and cost-effective solution. KDM has been in the engineering and manufacturing switchgears for more than 10 years. We and our kind of product are known for their reliability, efficiency and affordability.

## China control switchgear in China distributor

---

### Switchgear manufacturers

Air insulated switchgear (AIS) is an auxiliary distribution unit used to disperse the electrical energy of the main transmission unit fed by a large distribution transformer. adopts the air as the ...
