

Container generator 20kw

Overview

What is container type diesel generator set?

Container type Diesel Generator Set Jet power supply container type generator set is design in accordance with ISO/TC104 standard size, rational construction, to make sure the generator set will not be damaged due to under high pressure in transport, and is suitable for ship transportation.

What is jet power supply container type generator set?

Jet power supply container type generator set is design in accordance with ISO/TC104 standard size, rational construction, to make sure the generator set will not be damaged due to under high pressure in transport, and is suitable for ship transportation. We can supply the 20' container, 40' container, and widen or heighten container type.

How much power does a 20kW generator consume?

A 20kw generator consumes too little power for a normal home, which requires between 25 and 40 kilowatts of power. However, it's mentioned that around 30 to 50 kilowatts of electricity is needed to run the fundamental electrical functions of a typical American house. Therefore, a 20kW generator would not be sufficient to keep a house powered up during a grid outage.

What are the different types of container generators?

We can supply the 20' container, 40' container, and widen or heighten container type. They are divided into the normal type and silent type. This series generator set can be easily moved to the desired location, can run under the most demanding working conditions.
