

# **Cordoba Off-Grid Energy Storage Power Station in Argentina**

## Overview

---

This 150MW/600MWh facility – one of Latin America's largest battery storage projects – demonstrates how cutting-edge technology can stabilize grids and maximize renewable integration. Can battery energy storage modernize the grid in Argentina?

The. Argentina's ambitious push toward grid modernization through battery energy storage has received an enthusiastic response, with CAMMESA (Compañía Administradora del Mercado Mayorista Eléctrico) confirming the submission of 27 project proposals from 15 companies under its AlmaGBA program.

Why is Argentina a good stance on energy storage?

In Argentina, the stance provides a good lesson to the European stakeholders, especially in the commercial and industrial segments of energy storage. Emerging markets can present both local and foreign players by developing tenders that are investment appropriate and clear technically and financially secured.

How many MW of battery energy storage will be deployed in Buenos Aires?

The initiative aims to deploy 500 MW of battery energy storage systems (BESS) in the Greater Buenos Aires Area (GBA), but the submitted capacity has far exceeded expectations—reaching a combined 1,347 MW.

What does Argentina's 1.3 GW battery storage tender mean for Latin America?

Argentina's 1.3 GW battery storage tender marks a transformative leap toward grid resilience and clean energy leadership in Latin America.

## Cordoba Off-Grid Energy Storage Power Station in Argentina

---

Córdoba welcomes the new ZGR Corporación manufacturing ...

Nov 6, 2025 · Meanwhile, El Día de Córdoba highlighted that the city welcomes another major industrial player, noting that the company will launch "a state-of-the-art plant in the logistics ...
