Cost of a 50kW Foldable Container for Indian Base Stations

Overview

The cost of a 50kW lithium-ion battery storage system using LiFePO4 technology can range from \$30,000 to \$60,000 or more, depending on the quality and brand of the batteries. How much does a container cost in India?

The container market in India is a part of a complex global ecosystem that has experienced significant turbulence. In October 2023, international freight rates experienced a significant decline, resulting in the cost of shipping a 40-foot container falling to just \$1,342. But the shipping world is unpredictable.

How much does a 40ft container cost?

Drewry's World Container Index puts the global average price of shipping a 40ft container at \$1,859 (USD) for 13 November, 2025. Between now and the end of the year, container shipping prices will likely remain soft particularly if the current ceasefire between Israel and Palestine enables more shipping traffic to flow through the Suez canal.

What types of shipping containers are available in India?

Many different kinds of shipping containers are available in India, including: Standard dry containers. The most common type of container is often used for ordinary Indian container shipping.

Are global container shipping rates still 46% lower than last year?

Global container shipping rates are still 46% lower than they were in November last year. Drewry's World Container Index puts the global average price of shipping a 40ft container at \$1,859 (USD) for 13 November, 2025.
