

# Does Gothenburg Sweden produce outdoor power supplies

## Overview

---

Does Sweden have a sustainable power supply industry?

In Sweden, the power supply industry is characterized by a strong focus on sustainability and renewable energy sources. The country aims to transition to a carbon-neutral economy by 2045, making it essential for companies in this sector to align with environmental regulations and government policies promoting green energy.

Why should you choose a power supply company in Sweden?

They provide comprehensive project management services and ensure quality testing, making them a reliable partner for power supply solutions. In Sweden, the power supply industry is characterized by a strong focus on sustainability and renewable energy sources.

How does Sweden use energy?

In Stockholm, the body heat from commuters passing through Stockholm Central Station is used to heat a nearby building, and in the southern town of Växjö, there are passive high-rises. More than half of the energy used in Sweden comes from renewable energy sources. Find out more about Sweden's energy use.

How will the Gothenburg battery factory benefit the environment?

In a unique collaboration between the city and the battery factory, purified wastewater from Gothenburg residents will be used for cooling during production. The heated water will then be reused in the district heating network, benefiting both the environment and the city's residents.
