Overview

Which battery energy storage systems are available in Ireland?

The Kylemore Battery Energy Storage System in Dublin went into operation in 2023 and has the capability of providing 30MW of fast-acting storage. The South Wall Battery Energy Storage System went live in 2023 and has the capability of providing 30MW of fast-acting energy storage.

How much energy storage does Ireland have?

Image: ESB. ESB Networks has announced that Ireland's electricity grid now has 1GW of energy storage available from different energy storage assets. This figure includes 731.5MW of battery energy storage system (BESS) projects and 292MW from Turlough Hill pumped storage power station - which is celebrating its 50th anniversary this year.

How many MW of battery storage capacity are there in Ireland?

We currently have more than 300MWs of battery storage capacity in operation in Ireland, making it one of the largest battery portfolios in Europe. We plan to develop a pipeline of large scale battery projects, as well as additional renewable enabling technologies.

What was Ireland's first battery-based energy storage project?

Kilathmoy was Ireland's first battery-based energy storage project and the project's 11 MW storage solution is the fastest-responding grid-connected battery in the world. Fluence also supplied the technology for Kilroot power station in Antrim, which was the first commercial battery-based energy storage project in Europe.
