

Dushanbe lithium energy storage power supply sales

Overview

Who is Tu Energy Storage Technology (Shanghai)?

Safe operation and system performance optimization. TU Energy Storage Technology (Shanghai) Co., Ltd., founded in 2017, is a high-tech enterprise specializing in the research and development, production and sales of energy storage battery management systems (BMS) and photovoltaic inverters.

Why should you choose daantu energy storage?

There are many stringent requirements on the security and reliability of BMS, and daantu energy storage has made full preparations. From core chip selection to system-level architecture, we guarantee the safety and reliability of battery products in an all-round and real-time manner.

How much energy storage will Europe have by 2023?

According to SolorPower Europe's forecast, the new installed capacity of the European domestic energy storage market will exceed 1GWh by 2023. The electrochemical energy storage industry chain, like other industries, consists of upstream, middle reaches, and downstream.

What is the upstream of the electrochemical energy storage industry chain?

The upstream of the electrochemical energy storage industry chain mainly consists of various raw material suppliers, including positive and negative pole materials, electrolytes, battery diaphragms, electronic components, special auxiliary materials, etc.
