EU solar container battery Procurement

Overview

How many battery energy storage systems are there in the EU?

Dion Sud continued: “The EU currently has just over 50 GWh of battery energy storage systems (BESS). To stay on track for the 2030 renewables targets, this must increase to between 500 and 780 GWh. Our core ask: 10X more battery storage in 5 years.”.

What is the European market outlook for battery storage?

The move builds on the success of SolarPower Europe’s annual European Market Outlook for Battery Storage, an established point of reference in the energy sector. Dion Sud continued: “The EU currently has just over 50 GWh of battery energy storage systems (BESS).

What is the battery storage Europe platform?

BRUSSELS, Belgium (Tuesday 1 July 2025): SolarPower Europe has officially launched the Battery Storage Europe Platform, a major new initiative to drive forward the business case and regulatory framework for battery storage across the European Union. Juhi Dion Sud, newly appointed Head of the Battery Storage Europe Platform, said:.

Who can participate in the battery storage Europe platform?

Participation in the Battery Storage Europe Platform is open to members of SolarPower Europe. Strategic Partnership opportunities are also available for organisations interested in taking a leading role in the work of the Platform. Get in touch to explore your involvement with the Platform.
