

East Africa solar Container Substation Installation Process

Overview

What is a containerized mobile substation?

Containerized mobile substations are sheltered and address applications in challenging environmental conditions including areas of high pollution, and humidity. Customers requiring shorter overall delivery times and minimal on-site work have been the main drivers for Hitachi Energy's development of pre-fabricated indoor substations.

Why did Hitachi energy develop a pre-fabricated Indoor Substation?

Customers requiring shorter overall delivery times and minimal on-site work have been the main drivers for Hitachi Energy's development of pre-fabricated indoor substations. [Learn More.](#)

What is a small distribution substation?

Smaller distribution substations are subdivided into container-sized modules, which can be manufactured, assembled and tested at the factory, allowing easy transport and fast installation and commissioning at site.

What are the guidelines for installing photovoltaic mini-grids?

Guidelines for the installation of Photovoltaic Mini-Grids IEC 60228:Conductors of insulated cables IEC 61140:Protection against electric shock - Common aspects for installation and equipment IEC 62109: Safety of power converters for use in photovoltaic power systems\
