

Energy storage equipment processing factory in Penang Malaysia

Overview

Where is Penang manufacturing facility located?

With more than 45,000sqm of production space, our factory is equipped with full sheet metal processes and highly automated. Located in Perai, Penang. Our Penang factory specializes in servicing the needs of semiconductor clients with fabricated metal and PVC parts. Our Penang plant also operates the most advanced coating facility in the region.

What is the new Penang factory?

The new Penang factory is the latest venture in this quest. It is essential in uncertain times that LEM looks to increase its resilience and serve our customers better. We will achieve this by investing in advanced production facilities and personnel capable of manufacturing the best products designed to meet the demands of this growing sector.

Why should you invest in energy storage in Malaysia?

This technology not only powers vehicles but also acts as a crucial enabler for a smart and resilient energy ecosystem. The Energy Storage industry in Malaysia presents several key considerations for those interested in exploring opportunities within this sector.
