

# Eritrea Power Energy Base Station

## Overview

---

Where can I find information about energy in Eritrea?

You can find information on energy production, total primary energy supply, electricity consumption, and CO2 emissions for Eritrea on the IEA homepage. For data on energy access (access to electricity, access to clean cooking, renewable energy, and energy efficiency) in Eritrea, visit the Tracking SDG7 homepage.

Where can I find information on renewable power capacity & generation of Eritrea?

You can find information on the renewable power capacity and generation in Eritrea on the homepage of IRENA.org. Climatescope 2019 lists the clean energy policies and investments for Eritrea.

How much electricity could Eritrea generate in 1991?

Electricity generation capacity has increased from a total of 30 MW in 1991 to over 130 MW at present. The Government of Eritrea gave priority status to the energy sector immediately after the country's independence in May 1991.

How does Eritrea provide electricity to remote areas?

Eritrea is also embarking upon an extensive rural electrification programme. The primary goal is to provide electricity to rural areas from the national grid where possible, and from decentralised systems (wind, solar, gensets, etc.) in more remote areas.
