# Exchange on Latin American Photovoltaic Energy Storage Containers for Data Centers

## Overview

---

What is the Energy Storage Summit Latin America?

The Energy Storage Summit Latin America will bring together over 300 peers and innovators across the energy storage eco-system, to delve deeper into the current successes and challenges for energy storage in Latin America. Join us in October 2025 to further the industry and secure your stake in Latin America's evolving regional markets.

Which countries are embracing solar energy storage in Latin America?

Argentina has awarded 667MW of battery energy storage system (BESS) in its first tender under the AlmaGBA scheme. Chile is leading Latin America's wave of energy storage adoption, closely linked to its embrace of solar PV.

Is Chile leading Latin America's wave of energy storage adoption?

Chile is leading Latin America's wave of energy storage adoption, closely linked to its embrace of solar PV. Utility and independent power producer (IPP) Engie has started commercial operations of its 48MW/264MWh battery energy storage system (BESS) Capricornio project in the northern region of Antofagasta, Chile.

Where can solar power be used in Latin America?

BESS Coya, a co-located project with a solar PV farm, will be able to store the equivalent of five hours of electricity, representing the delivery of around 200 GWh on average per year. Other exciting markets in Latin America include Brazil, the Dominican Republic, Puerto Rico, Peru and Colombia.
