Fiji Energy Storage Power Supply Sales Price

Overview

What is the supply voltage in Fiji?

The supply voltage in Fiji is 240V with a frequency of 50 Hz. For most of your personal electronics, including mobile phones, laptops, tablets, and cameras – you will not need a converter because they are almost always dual voltage (typically 100-240V).

Who is Energy Fiji Limited?

Energy Fiji Limited is a company established in 1966 under the Electricity Act of 1966. It began operating from 1 August of that year and was previously known as the Fiji Electricity Authority.

Does Fiji have a power outlet?

Fiji has three-pin power outlets, which are identical to Australia and New Zealand. Resorts in the islands have generators, so you'll have electricity from sunset to midnight and generally for the first part of the morning, however operating times can vary so please check with your resorts. What is the voltage and power outlet in Fiji?
