

France Communications 5G Base Station Branch

Overview

Which telco has the largest 5G network in France?

To know more: Having deployed France's largest 5G network by number of base stations, Free is today announcing that it has become the country's first telco to offer 5G 3.5 GHz SA (Standalone Access) on its public network on a national scale.

Is 5G coming to France?

After a long wait and much controversy, 5G has finally arrived in France. Since its deployment in November 2020, 5G sites and antennas have multiplied all over the French territory and the transition to the new generation of mobile phone standards was initiated. Have you ever heard of 5G?

.

Does free have 5G in France?

Available in almost 10,500 municipalities, it already covers nearly 95% of the French population. Today, Free is announcing that it has deployed 5G SA (Standalone Access) on the 3.5 GHz frequencies of its public network on a national scale. By doing this, it has become the first mobile operator in France to offer this technology to its subscribers.

Who is responsible for 5G deployment in France?

The 3.4-3.8 GHz spectrum was awarded to four main operators: Bouygues Telecom, FreeMobile, Orange, and SFR. These operators are responsible for deploying 5G infrastructure across the country. There is a map with the 5G deployment : Observatoire des déploiements 5G | ARCEP.
