# France Lyon household energy storage franchise fee

## Overview

---

Does France have a storage battery market?

The European residential storage battery market has grown significantly during the energy crisis, but it has remained relatively small in France. Nevertheless, battery manufacturers expect higher demand due to rising electricity prices. From pv magazine France.

How much does solar energy cost in France?

That €0.04/kWh price for excess power from small solar arrays compares with an average electricity price in France of €0.2146/kWh. “We must continue to communicate with the general public so that they don’t abandon the idea of investing in solar energy,” said the Hello Watt renewable electricity supplier.

How many homes in France have PV systems?

French market research firm LCP Delta reports that approximately 566,000 homes in France had PV systems by the end of 2022, with around 2 GW of capacity. Among these systems, only 1,000 were equipped with home storage batteries, with average capacities of 4 kW.

How many battery energy storage systems are there in Europe?

From pv magazine France SolarPower Europe says the number of battery energy storage systems (BESS) in residential buildings throughout Europe jumped from 650,000 installations in 2021 to more than 1 million in 2022. This is a sharp rise, largely driven by jump in energy prices since the start of the war in Ukraine.
