Overview

What is a crude & HFO storage tank?

The Crude & HFO Storage Tank from TEC Container Solutions provides high-capacity, insulated static storage for crude oil, heavy fuel oils (HFO), and other high-viscosity products. Built with a double-walled, fully bundled design, it ensures environmental protection while maintaining stable product temperatures even in harsh conditions.

What is energy storage container?

SCU uses standard battery modules, PCS modules, BMS, EMS, and other systems to form standard containers to build large-scale grid-side energy storage projects.

Why do you need a relocatable oil storage solution?

Managing crude oil and heavy fuel oils demands more than just standard tanks. Our insulated, double-walled storage solution maintains product temperature, minimises risks, and ensures long-term storage performance without environmental compromise. Need a relocatable storage solution for changing project sites?

.

How can a mobile energy storage system help a construction site?

Integrate solar, storage, and charging stations to provide more green and low-carbon energy. On the construction site, there is no grid power, and the mobile energy storage is used for power supply. During a power outage, stored electricity can be used to continue operations without interruptions.
