Georgetown outdoor wind power base station price

Overview

How much does a commercial wind turbine cost?

According to HomeGuide, the average cost for a commercial wind turbine ranges from \$2.5 million to \$4 million, with prices typically around \$1 to \$1.25 million per megawatt. Onshore turbines generally have capacities between 2 to 4 megawatts, while larger offshore turbines can cost significantly more, often exceeding \$100 million.

How much does an offshore wind turbine cost?

Large offshore turbines can cost tens of millions of dollars, with the most powerful 12 MW turbines reaching up to \$400 million for manufacturing and installation. Lastly, Statista reports that the global average installed cost for onshore wind power was approximately \$1,160 per kilowatt in 2023.
