Georgia factory installation solar panel prices

Overview

How much do solar panels cost in Georgia?

As of October 2024, the average solar panel system costs \$2.63/W including installation in Georgia. For a 5 kW installation, this comes out to about \$13,173 before incentives, though prices range from \$11,197 to \$15,149. After the federal tax credit, the average price drops by 30%. You'll probably pay even less than what we show here.

How much does a 5 kW solar system cost in Georgia?

While a 5 kW system will only cost you \$13,173 in Georgia, doubling the system size effectively doubles the price, so you'll pay about twice that for a 10 kW system. The higher the price tag, though, the more you'll get back as a credit towards your federal tax bill. Are solar panels worth it in Georgia?

How much do solar panels cost?

The cost of solar panels in Georgia is currently lower than the average price of \$3.00 per watt across the United States for residential solar power systems. The size of a solar panel system affects the installation cost, with larger installations having a lower cost per watt due to 'bulk pricing'.

How much does it cost to install a solar system?

Installing a residential solar panel system — also called a photovoltaic or PV system — can cost between \$10,000 to \$30,000 or more. Individual costs vary significantly. On the high end, Brad in Bogart said he was quoted \$40,000 to go solar, including battery backup. The size of your system plays a big factor in the cost.

Georgia Solar Panel Costs: 2025 Expert Guide

The Amount of Electricity Your Home UsesThe Type of Solar Panels You BuyThe Quality of Your Solar InstallationFederal, State, and Local Solar IncentivesHomes that use more electricity will need more solar panels to cover their energy needs. Although solar panels do get cheaper on a per-watt basis, the overall cost of the system will increase as more panels are added. However, the higher a home's energy usage, the more solar panels can save homeowners energy bills.
