

# **Gitega export micro inverter manufacturer**

## Overview

---

Who is the best micro inverter supplier in China?

If you are looking for the best Micro inverter supplier in China, we are your trusted partner. CHISAGE takes great pride in offering our customers top-quality energy storage solutions that are both reliable and affordable.

What is a micro inverter?

Here, they act as grid-tied solar inverters. Compared with other inverters, micro inverters are smaller in size and more compact in design, which can help users achieve energy self-sufficiency in a limited space. They are versatile, and reliable making them perfect for most solar power generation systems.

What are the different types of micro inverters?

Currently, our company offers two main micro inverter models: 800W and 2000W. These models are designed with a one-to-two and one-to-four configuration, respectively. They are lightweight, compact, and designed for low-voltage applications with a maximum DC voltage of 60V.

What is the difference between a micro inverter and a string system?

The micro inverter is a parallel circuit design and the string system circuit is a series circuit design. The main difference between the two is the type of connection. First of all, they have different operating voltages.
