

Helsinki solar container lithium battery pack OEM factory

Overview

What is a containerized energy storage system?

The Containerized energy storage system refers to large lithium energy storage systems installed in sturdy, portable shipping containers, which usually range from 5ft, 10ft, 20ft, and 40ft, and mainly focus on 50Kwh to 10Mwh.

Why should you invest in the battery industry in northern Europe?

Northern Europe is an excellent location for the battery industry, as the availability of raw materials and clean energy is good, production chains are transparent, and sources of battery materials can be traced. Sweco's international team is dedicated to support investors in a developing of a sustainable battery industry across Europe.

What is the European battery value chain?

The European battery value chain responds sustainably to the global need for lithium-ion batteries. Sweco is committed to building a carbon-neutral battery value chain that takes into account social, environmental and social responsibility.
