Home folding solar light

Overview

What is a folding solar panel?

A folding solar panel is a portable solar panel that can be folded for easy storage. The surface of the panels have a robust ETFE lamination which helps to absorb more light. It comes complete with crocodile (a.k.a alligator) clips and an extension cable to connect directly to a 12 volt battery.

Solight's SolarPuff is an AWARD winning product exhibited in the GOOD DESIGN Doing GOOD Exhibit - Modern Museum of Art, in New York City.

How do you fold a helix?

Designed with Origami to fold flat. Modern and sleek the Helix creates luminous light with a uniform, frosted glow. Twist and pull the two sides to open into a cube and twist and push together to fold flat. The twist keeps the corners straight in the collapsed state so the material remembers to be a cube when unfolded. SETTINGS:
