

Honduras uses C10K uninterruptible power supply

Overview

What are Honduras' electrification goals?

Honduras's electrification goals are anchored in the Universal Access to Electricity Policy for Honduras (PAUEH). Electrify all schools and hospitals nationwide by 2027. Achieve 100% electrification by 2030 and continue improving electricity service until 2050.

How did Honduras respond to the energy crisis?

In 1994, Honduras faced a severe energy crisis, which the government responded to by passing the Framework Law of the Electricity Subsector, permitting the private sector to participate in electricity generation. In 2013, Decree 138 was passed to promote investment in solar PV plants by providing preferential pricing.

Does Honduras have a power grid?

Honduras's power grid is extensively developed in all departments except the easternmost department, Gracias a Dios. Honduras has granted distribution concessions to 7 utilities nationwide, with the state-owned Empresa Nacional de Energía Eléctrica (ENEE) managing nearly 99% of the electricity grid. lowest electricity access rates.

Who regulates the electricity market in Honduras?

The Regulatory Commission for Electricity (CREE) regulates the electricity market in Honduras, including tariff setting and oversight of electricity generation and distribution. Solartia, in partnership with Ingeteam, developed hybrid mini-grids (solar-diesel) to serve remote communities in Brus Laguna and Guanaja, funded by IDB.
