House circuit breaker factory in Singapore

Overview

Why should you choose a circuit breaker manufacturer in Singapore?

24/7 online get a quote! Circuit breakers are essential components of any electrical system, protecting against electrical overloads and short circuits. In Singapore, the demand for reliable and high-quality circuit breakers has led to the emergence of a thriving industry of circuit breaker manufacturers.

How much does a circuit breaker cost in Singapore?

On average, the cost to replace a circuit breaker in Singapore can range from SGD 100 to SGD 500 or more, depending on the factors mentioned above.

What to Do When Circuit Breaker Trips in Singapore?

What does a circuit breaker do?

Circuit breakers are electrical switches that automatically interrupts the current of an overloaded electrical circuit, ground faults, or short circuits. It protects an electrical circuit from damage caused by excess current. What is the difference between MCB and MCCB?

Where is a tripped circuit breaker located?

Find the tripped circuit breaker in the distribution board (DB) box. A tripped breaker lever is usually located near the ON and OFF switch. Turn off the lights and other appliances as the lights and other electrical appliances must first be switched off before following the next step as it can lead to a sudden electrical surge.
